Hebrew — Good

Profile

SaaS Implementation Specialist with 8+ years of professional experience, including 4+ years in healthcare SaaS — combining hands-on implementation, product support, API validation, and quality assurance to help organizations deploy, support, and improve business-critical workflows. Through FreelanceHub, also provides website design & development services using React, Tailwind CSS, and Cloudflare Pages. Available for full-time, hybrid, and remote roles, as well as B2B contract engagements as a registered independent contractor.

Employment

SaaS Implementation & Product Specialist (QA & Automation) Aug 2023 - May 2026

Bolt Healthcare, Remote (USA) · Healthcare SaaS

- Led end-to-end API testing and validation using Postman to ensure secure, accurate integrations with HHAExchange and third-party SaaS platforms.
- Designed and executed functional, regression, and UAT test cases for the Healthtech Intake App, achieving 99.9% system uptime.
- Built dynamic PDF field mapping and validation logic to automate healthcare intake document workflows, increasing efficiency by 20%.
- Configured and validated complex intake workflows against business and compliance requirements, performing data integrity audits and release validation across multiple SaaS rollouts.
- Collaborated with engineering teams via Jira and Basecamp to triage defects, improve release quality, and support production deployments.

Technical Support & Workflow Specialist (SaaS Operations) Aug 2022 - Aug 2023

Bolt Healthcare, Remote (USA) · Healthcare SaaS

- Configured system workflows and supported enterprise healthcare client technical onboarding.
- Executed structured data mapping for dynamic PDF form processes, eliminating downstream submission errors and reducing intake errors by 15%.
- Resolved 50+ Tier 2/3 technical support tickets monthly via Jira/Basecamp, delivering root-cause analysis logs directly to engineering teams.

Technical Operator — Quality Control & Validation 2021 - 2022

Vishay Intertechnology, Inc. · Electronics Manufacturing

- Performed precision QA testing and calibration of electronic components per strict regulatory standards, with full performance documentation and process-improvement analysis.

Founder / Operations Manager Aug 2012 - Sep 2015

Shivam Institute (S.I.V.T), Dharamshala · Technical Training Centre

- Managed the full operational lifecycle of a technical training centre — scheduling, supplier coordination, staff management, and IT infrastructure — growing enrolment by 25%.

Freelance & Web Projects

- naveensharma.net** — Designed, built, and deployed a professional portfolio and business website using React + Vite, Tailwind CSS, GitHub, and Cloudflare Pages, with AI-assisted development.
- Django Blogging CMS** — BCA graduation project: authentication, CRUD operations, category management, and admin dashboard (Python, Django, MySQL, MongoDB, Bootstrap, AJAX).
- QA Certification Projects** — Software test plans for a Warehouse Management System and a Netflix-style subscription service: risk analysis, regression/sanity testing, and full defect lifecycle.
