

NAVEEN SHARMA

Healthcare SaaS Implementation & Systems Configuration Specialist

Be'er Sheva, Israel • 058-789-6289 • contact@naveensharma.net • naveensharma.net

SUMMARY

Healthcare SaaS Implementation & Systems Configuration Specialist with 3+ years of experience supporting multi-agency healthcare SaaS environments. Expertise in workflow configuration, platform administration, QA/UAT validation, user onboarding, product support, and HHAExchange-connected operational processes. Supported home care, ABA, HCBS, and developmental disability organizations through implementation, configuration, operational readiness, and production deployment.

CORE COMPETENCIES

Healthcare SaaS Implementation | Systems Configuration | Workflow Configuration | Platform Administration | Document Automation | QA & UAT Testing | User & Access Management | Customer Onboarding | Product Support | Healthcare Operations | Compliance Workflow Validation | HHAExchange Ecosystem | Data Validation

PROFESSIONAL EXPERIENCE

Bolt Healthcare — Healthcare SaaS Implementation & Systems Configuration Specialist | August 2022 - May 2026
| Remote

- Configured healthcare SaaS workflows across caregiver onboarding, patient intake, compliance tracking, and case management processes supporting multi-agency healthcare environments
- Implemented document automation workflows including field mapping, validation rules, conditional logic, and electronic documentation processes supporting agency-specific operational requirements
- Performed QA/UAT testing and production validation to ensure workflow accuracy, data integrity, operational readiness, and successful deployment across home care, ABA, HCBS, and developmental disability service providers
- Administered platform settings including user access, permissions, workflow routing, and system configuration using Super Admin privileges across 25+ healthcare organizations
- Supported HHAExchange-connected operational processes and validated workflows across agency-specific healthcare environments
- Provided product support and operational troubleshooting for healthcare agencies, reducing support resolution time through workflow documentation and validation

Vishay Intertechnology — Quality Control & Validation Specialist | 2021 - 2022 | Israel

- Performed quality control inspections and production validation across manufacturing operations
- Conducted data accuracy verification and maintained quality documentation across production environments

Shivam Institute of Vocational Training (S.I.V.T) — Founder & Operations Lead | August 2012 - September 2015 | India

- Founded and operated vocational training institute managing curriculum coordination, student administration, and staff operations
