

NAVEEN SHARMA

Technical Product Operations Engineer | SaaS Implementation Specialist | Systems Configuration

contact@naveensharma.net | linkedin.com/in/naveensharmatech | naveensharma.net

Be'er Sheva, Israel | 058-789-6289

PROFESSIONAL SUMMARY

Technical Product Operations professional with 7+ years of experience, including nearly 4 years of SaaS workflow automation, healthcare operations, and system architecture. Proven track record of engineering digital transformations for 25+ enterprise healthcare agencies, converting manual processes into HIPAA-compliant, automated systems. Expert in bridging technical configuration and operational requirements through systems design, workflow engineering, and validation testing.

CORE COMPETENCIES

Systems Configuration & Engineering: Dynamic Form & Document Configuration, Conditional Logic Engineering, Business Rules Configuration, Data Mapping & Schema Design, E-Signature Workflow Setup, Multi-Tenant Platform Administration, Workflow Automation, SaaS Platform Configuration.

Operations & Implementation: SaaS Implementation, Enterprise Client Onboarding, Platform Administration, User Provisioning & Access Management, API Integration, Intake Process Automation, Regulatory Compliance (HIPAA, WOTC, Wage Parity).

Validation & Testing: UAT & Functional Testing, Root-Cause Analysis, System Integration Testing, Regression Testing, End-to-End Validation.

Data & Process Management: Field-Level Validation Rules, Documentation Lifecycle Management, Process Optimization.

Technical Tools (Bolt Healthcare): Basecamp, Zendesk, HHAeXchange (API).

Personal Projects: Cloudflare (DNS/Pages administration for naveensharma.net).

Certification Trained: Jira, Google Cloud Architecture.

Proficient with AI-driven tools (Claude, Notion AI, GitHub Copilot, Scribe) to optimize technical workflows and documentation.

PROFESSIONAL EXPERIENCE

Technical Product Operations Engineer | Bolt Healthcare
August 2022 – May 2026

- Architected backend data-mapping schemas and configured field-level validation rules across diverse regulatory, referral, eligibility, and compliance form types spanning Home Care, ABA Therapy, HCBS, and Developmental Disability service lines — including federal employment forms, state DOH filings, tax-credit and wage-parity documentation, and agency-specific intake and consent packets — reducing intake errors and ensuring HIPAA compliance.
- Engineered and deployed 500+ dynamic intake and form workflows for 25+ healthcare

agencies (including Elderwood Health Plan, RCIL, Rising Stars, Able Home Care, Crown HC, White Glove, Age in Place, Magic HC etc.), automating conditional logic and data-binding schemas to ensure accurate form submission.

- Administered multi-tenant SaaS case management system (boltintakeapp.com) with Super-Admin access, managing user provisioning and HHAExchange API integration.
- Configured dropdown logic, e-signature workflows, and step-based conditional branching for multi-page dynamic files using Bolt's PDF Engine (boltdocs.com).
- Executed UAT and mapping validation tests ("Run Mapping Test") on production forms; performed root-cause analysis on data mapping and submission defects.
- Facilitated cross-functional collaboration via Basecamp by managing end-to-end task assignment and issue triage across 'Pending Jobs,' 'Needs Mapping,' and 'Needs Testing' workflows

Technical Operator (Quality Control & Validation) | Vishay Intertechnology, Inc.
November 2021 – December 2022

- Performed critical functional checks and quality control gates on high-precision components in medical and telecommunications sectors.
- Managed detailed operational performance records, utilizing machine data to facilitate process improvements and maintain rigorous adherence to global industry standards.

Franchisee Owner (Operations & Technical Management) | Shivam Institute for Vocational Training
August 2012 – September 2015

- Managed full-cycle business operations, including student enrollment and curriculum delivery for vocational training programs.
- Supervised IT infrastructure and lab maintenance to support training operations and student learning outcomes.

EDUCATION & CERTIFICATIONS

- **Bachelor of Computer Applications (BCA) - Cloud & Security**

Amity University Online

- **QA Engineering Certification (Web & Mobile)**

Smart College

- **Additional Certifications:** Software Testing, Automation Testing, Software Engineering (Programming Hub / Great Learning)
